Introduction

The 1851 Northumberland County Census is one of a series of compilations of the early census records for each county in New Brunswick.

This volume contains the names of family members, their age, occupation, origin and their date of arrival in the colony for each of the nine parishes in the county. In the census transcription which follows, the original order of the returns has been maintained and a master index has been created for the whole county (including name, parish and household numbers). The column "HH" or "Household Number" has been created to facilitate use of the index.

Researchers should note that the editor has employed some personal interpretation of the returns, based on his knowledge of Northumberland County families. This is particularly evident in the Parish of Glenelg, where the census taker apparently took liberties and recorded information which often does not appear accurate.

Ce volume fait partie de la série des recensements du Nouveau-Brunswick.

On y trouve les noms des familles, leur age, leur occupation, leur origine et leur date d'arrivée à la colonie pour chacune des neuf paroisses du comté de Northumberland en 1851. Dans la transcription du recensement qui suit, nous avons conservé l'ordre original et créé un index général pour tout le comté (comprenant le nom, la paroisse et les numéros de ménages). Les chercheurs noteront que nous avons créé la colonne "NM" (abréviation de "numéro de ménage") pour faciliter l'utilisation de l'index.

Les chercheurs doivent noter que l'éditeur a employé quelques interprétations personnelles, basées sur ses connaissances des familles du Comté de Northumberland, pour les réponses contenues dans le recensement. Ceci est particulièrement évident pour la paroisse civile de Glenelg où le recenseur prit apparemment des libertés et nota des informations qui souvent ne semblaient pas exactes.

This compilation will save time for researchers, but one may also consult the microfilm. The page numbers from the manuscript census have been included to enable you to do this. The microfilms may be ordered on interlibrary loan from:
National Archives of Canada

Many abbreviations are used in this transcription. A guide to these follows.

Ce volume est destiné à économiser du temps au chercheur qui peut consulter le microfilm au besoin. Afin de faciliter le travail du chercheur, nous avons inclus le numéro de la page du microfilm. Ces films peuvent être empruntés des Archives Nationales du Canada à travers une bibliothèque pourvu que le chercheur ait accès à une liseuse de microfilms. Voici l'adresse:

Puisque de nombreuses abréviations apparaissent dans la présente transcription, nous avons joint un guide ci-dessous.
